TWENTY-FIRST YEAR

EARLINGTON, HOPKINS COUNTY, KY., THURSDAY, APRIL 14, 1910

No. 15

EARLINGTON SCHOOL DISTRICT ENLARGED

Both White and Colored Hecla Schools Consolidated With Earlington.

Decided These Advantages Far Outweighed the Matter of Distance.

Financial Report—School Desk Award—Five New School Houses Authorized.

The County Board of Education had another busy day on Monday when the regular monthly meeting was held at Madisonville. There was but one member of the board absent.

The most important action taken at the meeting was the naming of Supt. Fox, T. M. Slaton and Paul M. Moore as a committee to have suitable plans prepared and to let contracts to the lowest bidders for the erection of new school houses in the following sub-districts: Grapevine, No. 50; Clements, No. 50; Copperas Springs, No. 49; Corbin, No. 58; Cavanaugh, No. 26; and an additional room to Howell, No. 38.

The treasurer of the board made financial report to April 11, 1910, which was, in brief, as follows:

Receipts.	
Total receipts from tax funds.....	\$8,454.94
Total receipts from other.....	985.05
Grand Total.....	\$9,440.49
Disbursements.	
New buildings.....	\$3,708.45
Sites, etc.....	121.50
Repairs to buildings, etc.....	705.70
Purnishing schools.....	1,885.83
Notes paid.....	1,350.28
Back claims and High School tuition.....	645.14
Incidentals 1909.....	507.92
Various other items.....	750.46
	\$8,625.28
April 11, 1910, balance on hand.....	815.21
	\$9,440.49

The Board inquired carefully into the condition of the Hecla school district, with reference both to the white and the colored schools, and after hearing statements from H. L. Ford, trustee of that sub-district, and Paul M. Moore, chairman of the Second Educational Division, as to number of pupils, condition of school property at Hecla, distance to the Earlington school houses, and character of the Earlington schools as now organized, the board members reached the unanimous conclusion that the Hecla sub-district should be consolidated with the Earlington district, and took official action ordering this consolidation.

Mr. Ford and Mr. Moore both made it plain that there was opposition to this consolidation, because of the distance, but the Board thought the other considerations outweighed the distance. The conclusion was reached that the superior educational advantages afforded by the splendidly organized graded schools of Earlington, with the modern buildings and equipment, outweighed all other considerations.

School furniture was examined during the afternoon and bids opened for supplies for the year 1910-11. The result was that the contract was awarded to the Economic School Supply Co., of Nashville, Tenn., as the lowest bidder.

An interesting incident of the

day was the offer of Mr. Mason, of Copperas Springs sub-district, who has but one child and is a man of quite moderate circumstances, to give to the Board free of charge an acre of land, to be selected by the representative of the Board and to include a spring, if they would order a new school house built and continue the school in that sub-district. This sub-district did not have a school last year, for lack of sufficient number of pupils, but has this year the required number, but school could not be continued in the old house. The Board declined to accept the lot without compensation and allowed \$30 to cover cost of changing line of fence to set out the lot for school.

Provisions for water supply at three school houses was authorized. The next meeting will be held Monday, May 9th.

NEW FIRM FOR EARLINGTON

Ideal Variety Store Opened Today in Victory Building.

The Ideal Variety Store, owned by Guilf & Co., opened for business today in the Victory building, next door to Tappan & Gardner. Their stock consists of chinaware, glassware, enamelware, tinware, light hardware, hair goods, jewelry, notions, etc., and is sold at popular prices, most articles being at 5, 10 and 25 cents, and all of their bargains. The Guilf brothers come to our town well recommended and should receive the patronage of everyone in need of any of the above named articles.

Lock Mary Water Supply.

The following is the report of the water supply published by the insurance papers, but since this the lake has been enlarged and now covers 161 acres of land and the power through the city is greater. We have a water works system that any city has reason to be proud of, and we are proud of it, and our volunteer fire department cannot be bested in any small city in the State.

WATER SUPPLY.—Source, lake, 4 mile from business center; system, pump to res. and direct; res. cap., 100,000 gals.; 2 pumping engines, cap. per day 120,000 gals.; constructor, Cameron; mains, iron, 3 miles; 4 to 8 in. dia.; 18 hydrants; meters, total number 300; Meterstone 100, \$25; 100; owned by Co.; 375 services; pipe, wrought iron; pressure, dom. 20 to 45 pounds; res. 45 pounds; works belong to Co.

A Complete Success.

The Shirt Waist Bazaar given by the ladies of the Christian church at the rink Thursday night was a complete success. The gross receipts were in excess of \$100 and the supper was well attended. These ladies deserve great credit for their work among the poor in our city.

Rink to be Used as Army.

The rink is being fixed so it can be used as an armory by Co. G, K. S. G., and it will then be the best armory in the State outside of Louisville and the larger cities. This will in no way interfere with the rink for skating, as the night used will not conflict.

COMET SEEN; MINUS TAIL

Appears Just Before Dawn, But Not Yet Bright Enough to be Seen by Naked Eye.

Halley's Wanderer Watched From Yerkes Observatory

Chicago, April 12.—Minus its tail, its luster dimmed to a point below the light of a sixth magnitude star, but rushing earthward at the exact place its schedule prescribed, Halley's comet returned to the ken of astronomers this morning, and for more than half an hour before dawn was watched from Yerkes Observatory at Williams Bay, Wis., by Professors Frost and Bernard, working independently.

It was still to be seen when the dawn was quite bright, according to Professor Frost, who observed it through the 12 inch telescope, being plainly seen within half an hour of sunrise. In a dark sky it would now be visible to the naked eye, Professor Frost said, but being so near the horizon until the dawn light begins to appear this slightest unfavorable condition of the atmosphere blots it out.

While he refused to make any predictions, Professor Frost said the comet very probably would not be seen by the naked eye until it comes into the evening sky next month.

Mystery in Lost Tail.

That the spectrum may show what has happened to the apparently lost tail of Halley's comet is the belief held by Professor Frost.

"It is worth noting that when it was here before, in 1835 the tail disappeared two days before perihelion, and was not seen again for two months," he said. "Halley's is the only comet ever known to behave like this. It is probable that the tail is there, but is so dispersed that it is not bright enough to be seen."

"The theory of its being fore-shortened or the head being between us and the tail is altogether untenable. A comet's tail always points away from the sun, and if there have been any pictures printed in which this was not the case they are incorrect. Sometimes a second tail appears, and this freak tail may point toward the sun, but the main tail always points away."

"If the tail is there and is merely invisible to our eyes the spectroscopic method show it. There was, of course, no such instrument when the comet was here in 1835. We hope to be able to use the spectroscopic on it in a short time and may prove that the tail is present by this means. The fact that the spectroscopic did not reveal its presence would not necessarily mean that the tail is not there, however, for it might be too dim even for that instrument."

Appearance as Was Expected.

"This was the first perfectly clear morning we have had for some time, and the comet was plainly to be seen from 4:15 o'clock until half an hour before sunrise, when it could still be seen in spite of the strong dawn light. It was not much dimmer than we had expected to find it, though it was not so bright as was hoped last year."

"Here we never predicted that it would be brighter than the fourth magnitude, though some optimists had said it would equal a first magnitude star in brilliance. It was slightly dimmer than a sixth magnitude star this

WILLIE DOCK STANFIELD DEAD

Engineer on Through Freight Killed by 52 at Nortonville.

REMAINS BROUGHT TO EARLINGTON—BURIED AT NASHVILLE.

Yesterday morning at 11:10 Wm. H. Stanfield, age 38, an engineer on one of the through runs on this division, was instantly killed while his train was standing in the siding at Nortonville, seven miles south of this city. The long freight had pulled into the siding to allow No. 52, the regular morning passenger, to pass them. While standing there Stanfield blew out his ship pan and on account

W. H. STANFIELD.

of the steam coming from the hot ashes could not see the engine on 52. As he came around the front of his engine he was struck on the right side of the head. The passenger train stopped instantly and picked up the unfortunate man, who died as he was being lifted into the baggage car. He was brought to this city and his wife in Nashville notified, also his father, who runs the hill engine at New Empire.

"Willie Dock," as he is known among his host of friends, was one of the most popular engineers on this division and has been an employee of the L. & N. ever since he has been able to work, working his way from an engine wiper to running a through freight. He leaves a wife and one child, also a father and six brothers and three sisters. His remains were carried to Nashville, his home, and will be buried from that city. The Bee extends its sympathy to the bereaved family.

Coroner Mack Steverson, of Madisonville, held an inquest and found that he came to his death from being struck by passenger train No. 52 at Nortonville at 11:10 o'clock a. m.

morning, but appeared much larger and was more noticeable for that reason.

"It will undoubtedly become brighter as it approaches nearer, but it may cover by a conspicuous object in the sky. It may never become visible to the naked eye."

GOV. COX OFFERED REWARD FOR MEN WHO SOWN SEED

Tobacco Beds in Grant County Ruined by Night Riders.

Frankfort, Ky., April 12.—Rewards for the arrest and conviction of the person or persons who sowed grass seed in the tobacco plant beds of three Grant county growers were offered today by Acting Governor Cox. The State will pay \$200 each for the arrest of the men who sowed seed in the plant beds of Joseph A. Wayland, Alfred Wilson and Ira D. Adams. These farmers found that bluegrass seed had been sown in their plant beds, ruining them.

THE BAPTIST INSTITUTE CLOSED

Friday Night, After an Interesting Session.

INTERESTING AND INSTRUCTIVE PROGRAM WAS RENDERED.

(Continued.)

The five days session of the Baptist Institute at the Baptist church closed Friday night. Every session was marked by increased spiritual power and enthusiasm. Every speaker, in his own unique originality, presented some phase of the great doctrine of God and His saving grace.

The meeting was greatly enjoyed by all who attended, and it seems to be the universal opinion that the Bible Institute has accomplished a great deal of good, which verifies the promise of our Lord that His word shall not return unto Him void, but it shall accomplish that where unto it is sent.

All of the speakers on the program were not present, but the others were prepared for that and readily filled in the program, so that every hour was filled by an interesting discourse.

The institute was opened by the pastor, Chas. S. Gregston, promptly at 2 o'clock Monday.

At 2:30 "The Pastor and His People" was ably presented by Rev. J. A. Kirtley, pastor of the Madisonville Baptist church.

In the absence of Bro. J. D. Adcock, Dr. J. D. Maddox, of Owensboro, took the second hour of the evening program, presenting with great tenderness and pathos, "The Sacrifice of Christ for Sin."

At 7:30, Dr. Maddox presented an interesting article on "Baptism in History," showing by numerous quotations from various authors that Baptist principles and tenets of doctrine have been declared in all ages from "John the Baptist" until now, and that in every age some of them have suffered violence at the hands of their enemies for their faith.

Tuesday morning, 10 o'clock, Bro. J. A. Kirtley clearly set forth the "Bible Doctrine of Repentance," showing that it is the imperative duty of every man to repent and turn to God.

At 10:45, "Soul Winning, the Business of the Christian," was presented by Pastor C. W. Knight, of Morganfield, showing clearly that soul winning is the life work of every child of God.

Tuesday afternoon, 2 o'clock, W. E. Hunter, of Princeton, spoke on "The Bible the Ultimate Authority in Religion," showing with power and demonstration that the Bible is the only authority or standard, in all spiritual matters.

At 3 o'clock "The Sabbath and Its Abuse," was presented in a very attractive way by Pastor O. M. Shultz, of Livermore. In the absence of Bro. W. J. Mahan, Bro. C. W. Knight spoke on the subject of "Sin," in such a way as to make every one feel the exceeding sinfulness of sin.

Wednesday morning at 10 o'clock, The Lord's supper was presented in a very attractive manner by Bro. O. M. Shultz.

At 10:45, Pastor H. B. Taylor, of Murray, presented the doctrine of "Adoption," as many never heard it before, setting forth the grace of God in adoption as a fundamental doctrine of the Bible.

At 2 o'clock, Bro. Knight presented with power the teaching of God's word on "The Preser-

vation of the Saints."

At 5 o'clock, Bro. J. D. Maddox gave an interesting discussion on "Church Discipline."

Wednesday night, Bro. H. B. Taylor spoke on the subject of stewardships, showing that we are only stewards of our God and all that we possess is only held as a steward of our Lord.

Thursday morning, 10 o'clock, we were delighted with the discussion of the subject of "Baptist and Education," by Prof. F. D. Perkins, President of Bethel College, Russellville.

Bro. J. A. Kirtley presented "Baptism" as Baptists believe the Bible teaches it.

Thursday afternoon, Pastor C. H. Gregston, of Clay, presented "The doctrine of the Apostles" and showed that that doctrine is still upheld and claimed from every orthodox Baptist pulpit.

Everybody interested in the Sunday school work enjoyed hearing Prof. F. D. Perkins in his able discussion of the "Sunday School Teacher Before Her Class."

Thursday night, the audience was deeply interested in the discussion of "Christian Union" by Dr. J. G. Bow, of Louisville. He is in favor of unity as the Bible teaches it.

Friday morning, the "Second Coming of Christ" was ably discussed by Bro. W. E. Hunter, showing what the Bible teaches on this subject of great importance.

"Christian Doctrine" was the subject of another splendid address by Dr. Bow.

In the absence of Bro. Adcock, Bro. W. E. Hunter discussed with power the subject of "Fallen Angels," showing that anything that is under law can fall under its condemnation, but Christians are not under law, but under grace.

Dr. Bow discussed the Sunday School Work, creating some helpful enthusiasm on this subject.

Friday night, the subject, "Salvation and Rewards," discussed by W. E. Hunter, was a fitting climax to this interesting week of service.

The writer would like to say more of each speaker and his subject, but time and space will not allow it.

E. A. C. Organize Baseball Club.

The E. A. C. have organized a baseball club and their first game will be with the Madisonville High School April 20. The regular line up is as follows:

Curtis, c.
Mitchell and Spillman, p.
Foley, first b.
Finley, second b.
Lamouth, third b.
Stokes, ss.
Chatten, lf.
Stone, rf.
Fugate, cf.

On account of the absence of some of these, they will be compelled to fill in for their first game. Will Fugate is manager and is open for any game from surrounding teams. A telephone call at their club room will reach him.

Shiner Party Leave For New Orleans.

The following people of Earlington left Saturday night for New Orleans to attend the Shriners' meeting: Mr. and Mrs. W. S. McGary, Mr. and Mrs. J. R. Rash, Mr. Jno. Hogan and lady, Mr. Carl Woolfork, Mr. Dave Cowell, Mr. Ellsworth Evans, Mr. W. E. Oakley and Miss Mollie Stodghill, who accompanies her cousin, Miss Bradie Stodghill, of Madisonville. They went in the Madisonville sleeper and will return in a week or ten days.

NOW OPEN

ELDER HENRY CUNNINGHAM

Recommends

Vinol

For Weak, Run-Down People.

"I was run down and weak from indigestion and general debility, also suffered from vertigo. I saw a cod liver preparation called Vinol advertised and decided to give it a trial, and the results were most gratifying. After taking two bottles I regained my strength and am now feeling unusually well." — HENRY CUNNINGHAM, Elder Baptist Church, Kingston, N.C.

Vinol contains the two most world-famed tonics—the medicinal, strengthening, body-building elements of Cod Liver Oil and Tonic Iron. Vinol contains no oil, and is by far the Best Strengthening Tonic obtainable. We return your money without question if Vinol does not accomplish all we claim for it.

ST. BERNARD DRUG STORE, Earlinton.

And Business Will Boom

ADDITIONAL PERSONALS

Misses Nell Carlin and Jeannette Napier, of Hanson, were guests of Mrs. Dan M. Evans Saturday and Sunday.

Robt. Davenport, an old citizen of this place, now living in Howell, Ind., spent several days last week in the city.

Ramsey Hainbridge, who has been working in Nashville, for some time, has returned to his home in Madisonville.

Nathan Priest, of Linton, Ind., son of Esquire Priest, returned home Sunday, after a week's visit to his parents.

Mrs. E. C. Bourland and Miss Jesse Bourland, of St. Louis, Mo., spent Friday in the city as guests of Mrs. Dick Griffin.

Misses Nora and Cordia Fredrick, of Liberty, Webster county, who have been visiting relatives here, returned home Tuesday.

Mrs. A. J. Bennett, who has been visiting her daughter, Mrs. Hugh Griffin, of Fox River, for several days, returned home Sunday.

Dr. J. L. Gumbert, of Detroit, Mich., who has visited his friend, Mr. M. B. Long for the past six weeks, returned home Monday.

Jas. Griffin, of British Columbia, who has been visiting in this and Christian county for the past two months, will return home tomorrow.

Imitators on Every Hand.
Though a nation famous for invention to a great extent, we are imitators. The pioneer of a new path finds himself crowded off, so many rush to follow in his footsteps. The scramble to cultivate new fields, becomes so great that the soil is soon exhausted. Markets become glutted and stagnation results. One man makes a happy hit, thousands imitate him, there is a stampede and then failure. Inventions are imitated, names are copied.

Cottonteed Meal Bread.
Bread made of cottonteed meal is one of the unusual things which was seen exhibited here in a local hotel, the specimen having been sent by a Texas cottonteed oil mill man, who says the bread is to be used extensively in his state. The taste of the stuff is as good as a piece of grab bread. —Vicksburg Correspondent New Orleans Times-Democrat.

Good News

"I write to tell you the good news that Cardui has helped me so much and I think it is just worth its weight in gold," writes Mrs. Maryan Marshall, of Woodstock, Ga.

"I do hope and trust that ladies who are suffering as I did, will take Cardui, for it has been a God's blessing to me, and will certainly help every lady who is suffering."

Take CARDUI

The Woman's Tonic

No matter if you suffer from headache, backache, pains in arms, shoulders and legs, dragging-down feelings, etc., or if you feel tired, weary, worn-out and generally miserable—Cardui will help you. It has helped thousands of other weak, sick ladies and if you will only give it a trial, you will be thankful ever after.

ADDITIONAL LOCALS

J. L. Dean, St. Bernard butcher, paid, last week, the highest price ever paid for beef cattle in this city. He paid \$81.35 for one beef, making it a record price.

A complete line of wagon material at Newton's shop, both in wood and wagon hardware. Will do work while you wait, and all work guaranteed. 1441.

A letter from Green Gill and Euse Davis, who are living near Dalhart, Texas, says they are both in good health and like that country fine. Groups are very good.

P. B. Davis, Jr., caught in Loch Mary, Monday, eight green bass, averaging more than a foot long and one that tipped the scales at four pounds and 9 ounces.

Mr. W. S. McGary will have at the rink, April 15, the Wolgast-Nelson fight, with moving pictures. These are the real pictures and should be seen by all lovers of the manly art.

The fine weather Sunday brought out all the horses and buggies. Everyone that could were out driving. The road between here and Madisonville was crowded all afternoon.

C. M. Henry, who has been in ill health for the past two months, left Monday for Hot Springs, Ark., for a three weeks' course of treatment and to take the famous baths at that place.

Walton Perry left Monday for Louisville, where he goes to have an operation performed on his eyes. Gilbert King, of St. Charles, will work in his place in the St. Bernard drug store.

Frank D. Rash and Henry Browning were in Louisville a few days last week, while they took the Scottish Rites degree in Masonry. There are only about six members of this county.

Best patent flour, \$6.50 per barrel, 48 pound sack patent flour, \$1.70; 48 pound sack patent flour, \$1.65; exchange flour per barrel, \$6.00; 48 pound sack, \$1.60; 24 pound sack, \$1.00, at David Adams'.

Gallon bucket syrup, 35c per gallon; half gallon 20c; meal, 90c per bushel; 40c half bushel; bran, \$1.65; clover, \$1.65. We always have on hand butter and eggs at the lowest market price. David Adams'.

An officer of the regular army will inspect the local company here April 18 and every member is expected to attend or have a written excuse from a doctor. Company G has in the past been the record for attendance and efficiency and it is to be hoped that they will not fall through this time.

A would-be Weston came through the city yesterday, wheeling a barrow walking from Los Angeles, Cal., to Boston, Mass. He left Los Angeles October 1 and expects to reach Boston by August 1, returning to the Western coast at the rate of 40 miles per day, beating the celebrated Weston. He makes his expenses by selling souvenir badges.

CORNS CURED 10c.

There's no need for you to suffer with corns. McFarland's Corn Cure has cured thousands and will cure you. Only 10 cents and cure guaranteed. R. M. McFarland, Madisonville, Ky.

According to Instructions.
At a recent Sunday school convention in Harrisburg, Pa., while the out-of-town guests were registering in one of the churches, a small girl rushed in, and in a shrill, excited voice, said: "Is there anybody here from Montgomery county?" Mother says if there is, I'm to get oysters, and if there ain't, I'm to get liver. —Lippincott's Magazine.

Alloys of Metals.
"Brass" stair carpet rods are not brass, but are rods of iron cased with very thin tubes of brass. Much "copper" work is not copper at all, but coated iron. The pure metal plays in manufacture to nothing by comparison with their alloys in their many hundreds of combinations.

Plea for Naturalness.
Follow the Irishman's advice to a poor speaker—come out from behind your nose and speak in your natural voice. Be your own self on all occasions. Don't strut about in borrowed plumage, for sooner or later you will be found out and unfeathered.

Turn from Mine to Farm.
Mining has always been the traditional industry of Mexico, because of the rapidly with which fortunes were made. The recent depression in this industry have brought agriculture to the fore.

Can't Fool the Beggar.
"You can't fool a beggar with bad money," says the Philosopher of Folly. "The deaf and dumb beggar rings it to see if it has the right sound, and the blind beggar looks for the mint mark." —Cleveland Leader.

Common Misconception.
"The extravagant man," said Thackeray, "is not or less liable to get the high cost of living mixed up in his mind with the cost of high living."

SOCIAL EVENTS.

The dance at Webb's Hall Thursday night was well attended and all enjoyed themselves highly. These impromptu affairs are also given every Saturday night after the band concert at the rink, and several of the Madisonville young people are attending regularly.

Among those who attended the dance given at the Webb's Hall in Madisonville Tuesday night were Dr. Gilbert King, Jas. Maloney, Jewell Webb, R. E. Brooks, Miss Richie Stone and W. E. Daves and wife. The Henderson band made music for the occasion and all enjoyed themselves.

The East End Card Club met with Mrs. C. B. Johnson last Friday afternoon and a most enjoyable meeting was the result. Mesdames Donahue and Randolph, and Misses Zilpah Moorehead and Kathleen Spillman were guests of the club. Mesdames Geo. Atkinson, C. B. Johnson and Miss Zilpah Moorehead made equally high scores.

The La So Con Club was entertained Friday night by Miss Blanche Sisk. Early in the evening the hostess requested that the La So Cons prove their ability as letter writers. There were some very unique and interesting results. Judging from the contents of the letters, there are some good times in store for the La So Cons. If there is anything in the "Wishing Well" Dame Fortune is with them. The pleasure of the social hour was added to by the rendering of a little "ditty" to the La So Con, sung to the tune of "Streets of Cairo" by one of the club members; said "ditty" having been composed by a prominent young bachelor about town. As the La So Cons are inclined to wards secrecy they will adhere strictly to their rule and withhold the names. A two course luncheon was served.

Peanut Cake for Cattle.
Peanut cake seems to be a supplanting cotton seed cake as the preferred food for Swedish cattle.

Love Greater Than Truth.
You throw yourself away in black, bitter, brutal antipathies and aversions. You fail with your truth as untrue before false majorities with their lie. Why? I ask it over and over again. Why? And I repeat it after you. Why? And I say: Because the truth never confutes and convinces. Only love confutes and convinces. The best way to get and keep an enemy is to be an enemy.—Horace Traubel, in Conservator.

The Wrong Catalogue.
Recently a party of tourists were visiting the Louvre. By mistake one of the third number carried a catalogue of the Luxembourg. Upon being confronted by a fastidious modern aide study with a black cat in the background, she turned to the corresponding number and complacently announced to the astonished listeners: "This is Whistler's mother." —Brooklyn Life.

Varying Names of Nation.
Spain, to which we owe so large a share of names in the new world, is Espana to the Spaniards themselves, Spagna to the Italians, and Espagne to the French.

Very Likely.
Old Lady (on being congratulated on her hundredth birthday)—Ah, I shall never forget this day as long as I live.

Slag Pictures.
Probably no greater surprise was ever given the sporting world than the one handed out on Washington's birthday, when the lightweight championship of the world title was wrested from Battling Nelson by Ad. Wolgast in the forthright round of a brutal combat. The sporting world at large was unable to figure Wolgast, a well known fighter, but at the same time considered no match for Nelson, even had a chance. As a matter of fact, Wolgast put over the greatest surprise of modern times. Nelson has always been able to take more punishment than any fighter of his class and even in the forthright round when referee Eddie Smith stopped the battle, the "Durable Dane" was forcing the fighting and rushing blindly into Wolgast's stinging jabs.

The pictures of this fight are pronounced by prize ring experts to be the greatest ever taken of any ring battle. Every move and every detail of this great ring encounter is shown and the mammoth arena in which the battle was fought is exhibited clear and life-like.

A lecturer, an eye witness of the battle, prepares the audience for every move, and names off all the celebrities and spectacular features as they appear upon the canvas.

These pictures, the only ones authorized of the great battle, will be seen at the Opera House for one night's performance, Friday, April 15. Prices, 25, 35 and 50c.

Love Greater Than Truth.
You throw yourself away in black, bitter, brutal antipathies and aversions. You fail with your truth as untrue before false majorities with their lie. Why? I ask it over and over again. Why? And I repeat it after you. Why? And I say: Because the truth never confutes and convinces. Only love confutes and convinces. ST. BERNARD MINING CO.

INCORPORATED

NOTICE OF MEETING

The Annual Meeting of the Stockholders of the St. Bernard Mining Company will be held at the office of the Company in Earlington, Kentucky, on Wednesday, May 11th, 1910, at 11 o'clock a.m., standard time, for the election of directors and the transaction of all such other business as may legally come before the meeting, including the approval and ratification of all action of the Board of Directors and of the Executive Committee since the last annual meeting of the Stockholders of the Company.

By order of the Board of Directors,
Geo. C. Atkinson, Secretary.
Earlington, Ky., April 1st, 1910.

Nyhart's Cat.
Stewart Nyhart, farmer, of Bartonsville, Monroe county, owns a cat that sleeps on the back of a calf nearly every night. It is said that they are very affectionate toward one another. —Philadelphia Record.

The Philosopher of Folly.
"These political rings," says the Philosopher of Folly, "remind me of the signs on a shop door. On the outside it says 'Push'—and you've got to shove hard. But once you're on the inside it says 'Pull'."

New Electrical Idea.
A new windmill apparatus for generating electricity for farm use has been perfected in England. A storage battery supplies the current when the wind is not blowing.

Copying American Idea.
The American system of office towel service has caught on in several English cities, including London.

The Victims.
Paradoxical as it may seem, the world's surplusage of gold seems to be causing trouble only for those who haven't got any of it.

Forests Worth Saving.
The forest fire fighting service of New York state costs \$40,000 a year and is worth the price.

Immense Drove of Caribou.
The caribou of Alaska travel north every year in large herds. Some say that these droves number 1,000.

Electricity in the Stable.
Vacuum suction combs are now in use in stables to curdy horses. An electrically driven fan produces the necessary vacuum.

Germans Taking to Peanuts.
A greatly increased consumption of peanuts in Germany is reported.

Most Welcome Gifts.
Those gifts are ever the most acceptable which the giver makes precious.—Ovid.

No Pushing for Japan.
The Japanese have no pudding, creams, pies or custards, or anything in which milk and butter are essential; and in actual cookery sweets do not play an important part. Candy and cake stores abound in all their cities and villages, for tea and cakes are always set before every guest. The foundation of all their sweetmeats is either finely ground rice flour sweetened or sugared beans. Centuries ago the Portuguese taught the Japanese to make sponge cake, which is much in favor. It is called *kasutera*.

See Monthly Quicks.
A hire which contains 15,000 bees in February has 15,000 in March, 48,000 in April and from 60,000 to 80,000 in May.

SPECIAL EDITION TODAY.

The Bee's Special Coal Edition is out with this issue. It has been months in preparation and the time was necessary because of the magnitude of the work undertaken and the careful and artistic lines upon which it was planned. The finished result justifies all expectations for a carefully compiled and very beautiful and valuable work. The leading article, by Mr. C. J. Norwood, Chief Inspector of Mines and Curator of the Geological Department of the State of Kentucky, was eminently worthy of being published in magazine form all by itself. Mr. Norwood is the first authority on these important questions as affecting the Kentucky field and his enunciations on these subjects are read with interest by geologists and mining men everywhere.

The Bee is peculiarly fortunate in having been able to secure this special article, written especially and brought up to the present day conditions, exclusively for this special number. In addition to this is another very valuable article, written by Mr. John P. Atkinson, President of the St. Bernard Mining Co., on Forestry and its relations to the mining industry. Mr. Atkinson is recognized as the leading authority on forestry in Kentucky and has taken special part in numerous conferences in state and nation, and addressed frequent gatherings on conservation of resources of forests and mines.

Besides these articles all the leading coal operators of the Western Kentucky Coal Field are represented in this number with descriptive articles on liberal display space and all most handsomely printed and illustrated with fine halftone engravings made for this edition from new and original photographs, most of which were made by Corbitt, The Bee's own best photographer.

Leading manufacturers of machinery for mining, some of the more important banking institutions, wholesale and retail merchants and professional men, recognizing The Bee's unique position in the advertising field among the operators of this most important industry and their many thousands of thrifty employees, have come into this special number and occupy space in which they tell of their business and their wares and invite The Bee's readers and friends to remember them with a share of their business. These we heartily commend to our friends as men and concerns worthy of their complete confidence and of their patronage. They are friends of the coal miner and the coal operator. Remember them.

Aside from its beauty and substantial though passing interest to the casual reader this special number of The Bee may well become a book of reference to all who are in any way interested in the coal operators of Western Kentucky, to all who have investments in coal operations, and to all capitalists, investors and scientific men who are now or may hereafter become interested in this coal field.

This edition, in addition to going to The Bee's subscribers and the coal people and leading business men generally, will be widely distributed and put on file in Commercial Club Boards of Trade and libraries of Kentucky and surrounding states, put in possession of trade journals and the press and into the hands of capitalists and investors, in careful pursuance of the purposes announced by The Bee when this special coal edition was first announced. We believe it will do good and lots of it, and believe our readers and friends will think the same when they have scanned the pages of this beautiful number.

BOOSTERS AND BOOSTING.

We notice through the Gleaner that the Henderson Booster special will arrive in Earlington at 7:35 o'clock a. m. on Thursday, May 5, and the Boosters will be with us for thirty minutes, and our people will be glad to welcome our neighbors from up the road, and give them the glad hand, because they are our neighbors, and because any movement to boost any portion of Western Kentucky helps the whole of this section. The Bee has devoted the greater part of its best efforts for the past twenty years to exploiting the rich resources of Western Kentucky as a whole and of Hopkins county especially, and welcomes any effort that any body may make along the same lines. Just now the Bee's latest specific work along this line comes out under this date in the form of a very complete and handsome special coal edition issued in magazine form and covering the principal

coal operations of the Western coal field. We shall save a few of the handsome and valuable magazines for the wise and discriminating members of the Henderson Boosters Club—just to show them something real big, bigger than a hardware store or a buggy factory and more valuable than a brace of distilleries.

Bank at Nortonville Goes into Liquidation.
Madisonville, Ky., April 12.—The First National Bank of Nortonville, which recently passed into the hands of Lon Rogers, of Lexington, and associates, has decided to liquidate, and ceased business Monday afternoon. The Farmers' Bank, of this city, will be liquidating agent.

Weddings at Madisonville.
Madisonville, Ky., April 12.—John William Dame, of Hanson, and Miss Wilfred Moore, of McLean county, were united in marriage.
Will Dukes and Alma Owens, both of White Plains, were married here.

ONE WEAK SPOT

Most Earlington People Have a Weak Part and Too Often It's the Back

Everyone has a weak spot. Too often it's a weak back. Twinges follow every sudden twist. Dull aching keeps up, day and night. Tells you the kidneys need help—For backache is really kidney-ache. A kidney cure is what you need. Doan's Kidney Pills cure sick kidneys. Cuts backache and urinary ills. Earlington people recommend the remedy.

Mrs. H. C. Smith, Earlington, Ky., says: "I was afflicted with kidney trouble for years. I had severe pains in the small of my back and when ever I stooped or lifted, the attacks were particularly acute. My back ached at night, and when I arose in the morning I was very lame. I was easily tired, felt languid, and was frequently troubled by headaches and attacks of nervousness and dizziness. I knew that my kidneys were disordered, as the secretions contained sediment and were much too frequent in passage. Learning of Doan's Kidney Pills, I procured a supply and received relief from the time I began taking them. The use of two boxes completely cured me. I will recommend Doan's Kidney Pills at every opportunity."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Not Wanted in Calif.

Perhaps the intending purchaser who recently wrote a London book-seller: "Please forward me a copy of Tennyson, but please not one bound in calf, as I am a vegetarian," intended to employ the volume only as a food for thought.—Christian Science Monthly.

Millinery - Department

Yes, we propose to make this department a department that every lady in Hopkins county will always find it to her interest to visit.

We are every week receiving new hats, new shapes and new trimming; and as for style, quality and price, we can certainly make it worth your time to visit us for your new hats.

The very latest creations in hats can always be found in our store.

Special attention given to all orders, both to be trimmed and retrimmed, and satisfaction guaranteed. Just give us an opportunity to prove these facts to you by coming to see us

BARNES, COWAND & CO.

INCORPORATED

EARLINGTON, KENTUCKY

THE EQUITABLE LIFE ASSURANCE SOCIETY OF THE UNITED STATES

NEW YORK, FEBRUARY 19, 1910.

TO POLICYHOLDERS:

The following synopsis of the Annual Statement, as of December 31, 1909, is submitted for your information:

	1909	1908
TOTAL ASSETS	\$486,109,637.98	\$472,339,508.83
TOTAL LIABILITIES	400,837,318.68	391,072,041.93
Consisting of Insurance Fund \$393,223,558.00 and \$7,613,760.68 of miscellaneous liabilities for 1909.		
The Insurance Fund (with future premiums and interest) will pay all outstanding policies as they mature.		
TOTAL SURPLUS	85,272,319.30	81,267,466.90
With an increasing number of maturities of Deferred Dividend Policies this sum will in time decrease.		
NEW INSURANCE PAID FOR (including additions \$3,852,143 in 1909 and \$3,540,621 in 1908)	110,943,016.00	91,262,101.00
This is an increase for the year of 21½ per cent., and was secured at a lower expense ratio than in 1908.		
INCREASE IN OUTSTANDING INSURANCE IN 1909 COMPARED WITH A DECREASE IN 1908	8,869,439.00	13,647,814.00
An improvement of \$22,517,283.00 as compared with 1908.		
FIRST YEAR CASH PREMIUMS (excluding on additions)	3,774,321.27	2,724,976.89
This is an increase of 38½ per cent. as compared with 1908.		
TOTAL AMOUNT PAID TO POLICYHOLDERS	51,716,579.04	47,861,542.69
DEATH BENEFITS	20,102,318.67	20,324,002.65
97 per cent. of all Death Claims in America were paid within one day after proofs of death were received.		
ENDOWMENTS	6,321,554.41	4,830,170.10
ANNUITIES, SURRENDER VALUES AND OTHER BENEFITS	15,683,665.88	14,696,354.16
DIVIDENDS TO POLICYHOLDERS	9,609,040.08	8,011,015.78
1910 dividends to Policyholders will approximate \$11,000,000.		
DIVIDENDS TO STOCKHOLDERS	7,000.00	7,000.00
This is the maximum dividend that stockholders can receive under the Society's Charter.		
OUTSTANDING LOANS TO POLICYHOLDERS	59,954,933.10	57,053,555.28
EARNINGS FROM INTEREST AND RENTS	21,074,013.95	20,636,406.61
OUTSTANDING LOANS ON REAL ESTATE MORTGAGES	97,532,648.03	97,570,767.22
TOTAL EXPENSES , including Commissions and Taxes	10,438,729.64	9,758,447.46

The average gross rate of interest realized during 1909 amounted to 4.50 percent, as against 4.45 percent in 1908, 4.39 percent in 1907, 4.26 percent in 1906, 4.03 percent in 1905, and 3.90 percent in 1904.

The condition of your Society is constantly improving. The growth of new business at a reduced expense ratio and the increase in outstanding insurance manifest public recognition of the fact.

PAUL MORTON, PRESIDENT

HENRY J. POWELL, Manager
EQUITABLE BUILDING, LOUISVILLE, KY.

Many mixtures are offered as substitutes for Royal. None of them is the same in composition or effectiveness, so wholesome and economical, nor will make such fine food.

Royal is the only Baking Powder made from Royal Grape Cream of Tartar

MT. MCKINLEY

JOLTS COOK

His Alleged Ascent Discredited by Fairbanks Expedition.

COULD FIND NOTHING TO AGREE WITH COOK'S MAPS AND DATES.

Fairbank, Alaska, April 12.—The Fairbanks expedition to Mount McKinley, the tallest peak in North America, reached the summit April 3, after a climb of one month from the base, it was announced today. No traces of Dr. Frederick A. Cook's alleged ascent were found.

Thus, Lloyd, leader of the expedition, arrived here last night. His companions were Daniel Patterson, W. R. Taylor and Charles McGonigle, and all reached the top of the mountain.

The expedition, which left Fairbanks December 15, after the controversy over Dr. Cook's disputed ascent was still raging, was financed by August Peterson and William McPherson, of this city. The plan was to go into camp on the mountain as high as possible and make a dash for the summit.

The obstacles encountered were not so great as had been predicted. Four camps were established during the ascent, and a trail was blazed all the way. Up to 12,000 feet the climbing did not present unusual difficulties. For the next 4,000 feet the way led over a steep ice field, which at first seemed to forbid further progress, but through which upon exploration it was found possible to locate a path.

The final dash to the top was made from the 10,000-foot camp. Mount McKinley terminates in twin peaks of equal height, one somewhat rounded and covered with snow, the other composed of bare and wind-swept rocks. On the rock peak the Fairbanks climbers placed American flag in a monument of stones.

The expedition, which was provided with Dr. Cook's maps and data, endeavored to follow his supposed route, but after failing to verify any part of his story of an ascent.

Base Metals in Coinage.
The wear and tear of coinage is delayed by the admixture of base metals with the precious ones. In their pure state gold and silver would be too soft to stand the usage for which coins are intended. Manufacturers of brass and gunmetal are able to effect very surprising results in alloys. They will produce bright and useful substances with the most unpromising material: gathered from the old metal merchants.

Cold Cure.
Any cold can be cured in 30 minutes or less time if the following simple remedy is used promptly: Hot water, one pint; spirits of camphor, two drops. Mix well and drink or rub the whole of it as hot as can be swallowed. When through the cold is most cases will be gone. If not, repeat, which it is warm and the air fresh, breathing deeply and the cold will vanish in a short time.

Value of Agitation.
Agitation is the method that plants the seed by the side of the ballot box.—Phillips.

For a man write a better book, preach a better sermon, or make a better mouse-trap than his neighbor, though he build his home in the wilderness, the world will make a beaten path to his door. —Emerson.

"The Fighting Parson."

They say a play without a love story is uninteresting. "The Fighting Parson" has not broken the rule, for through the entire production a beautiful love story is told. Good substantial love of the lasting kind. This with its pathos and comedy has made "The Fighting Parson" one of the season's successes and everywhere it has been produced met with instantaneous success from both an artistic as well as financial standpoint. The ministry recommends it because it teaches a moral lesson of right and wrong, yet does not offend the sensitive, but sends one home with a feeling of contentment for having seen it. Manager McGary of the Temple Theatre, offers it to his patrons for their approval on Tuesday, April 19.

Old Castle Garden.

Only old New Yorkers know that there was to be an island 200 feet off the Battery, and that it was fortified and known as Fort Clinton. The island was connected with the mainland by a draw-bridge. When the waterway was filled in the island became a part of the Battery and was known as Castle garden. As everybody knows, it is now the Aquarium. —New York Press.

See Always the Bright Side.

We must somehow get joy out of the main of life. We must see the beauty and the wonder of the world. We must admire the evil as we admire the good. We must like the dust with the homage that we pay the heavens. We must realize the sweet in struggle, in defeat, in destitution.

Easy Going.

"Study history, my son," advised old Mr. Polonius. "Then you can say that Hamlet was the son of his time, and that Turenne was the Hamlet of his times. This sort of stuff requires no effort and provides your writings with a wise air."

Seek Individually.

Be true to yourself and the world will be true to you. Whatever you say, write or do, stamp it with your own individuality—grapple fearlessly with your own ideas, express your thoughts and do your work in your own way.

Americans the Only Consumers.
At one of the most important groceries in Hamburg they tell us they are doing well to dispose of 30 or 40 pounds a month of sweet potatoes to resident Americans.

Keep Up with the Progression.
The keenest joy in life is found in taking a live interest in the passing days. If you go in and shut your windows and pull down the shades, you will miss the show.

A Special Order.
Divorced Woman—I like that doll very much, only I wish you could arrange it so that instead of saying papa and mamma, it would only say mamma.

Spanish Idea of Civic Duty.
Voting in Spain is held to be a duty to the community, not merely a privilege of the individual, and neglect of civic obligations carries its own penalty.

Aluminum Paper.
Aluminum paper, a cheaper substitute for tin foil, is made by pressing the powdered metal into a thin coating of resin on parchment-like paper.

Atlantic Also "Western Ocean."
It is a curious fact that sailors of the English speaking nations often speak of the Atlantic as the "western ocean."

FORTUNE IN WALL PAPER

Men Who Decorated Room With Nine Certificates Find Them Valuable.

San Francisco, April 12.—Ten years ago Henry Brink of Melrose purchased a few thousand shares of stock in an Arizona dollars he received a great bundle of beautiful green certificates, handsomely engraved.

After waiting in vain for the mine to become productive and finally deciding that as an investor he was as good as his certificates, Brink papered his room with the souvenirs of his folly. As a mural decoration the stock was worth par.

Yesterday he was informed that procelain clay of rare quality had been discovered on the mine site, and that his certificates in consequence are worth a fortune. Brink promptly withdrew his stock—that is, he soaked it, and the certificates peeled off usefully. His walls are now bare, but he says he will remedy that at once.

Cosmopolitan New York.
New York is the only city in the world where the restaurants provide the native dishes of every land. A Spaniard, Norwegian, Chinaman or Scotchman finds no difficulty in getting his home cooking.

Varying Wood Consumption.
In Germany 37 cubic feet of timber per capita is taken annually from her forests; France is able to get along with but 25 cubic feet; while in this country the consumption is 250 cubic feet per capita.

Looking Backward.
When those among us who are comparatively young can remember when only one or two of the railroads had fourth vice-presidents.

Reformation.
"You used to be an awful spendthrift," "Yes, but I ain't any longer." "Ah! Reformed?" "No—I spent it all."

Diogenes Modernized.
He discoursed from a grocer's tub, did that pestiferous old dog, they called Diogenes. He argued with the other men and stole some codfish now and then, or swiped the grocer's cheese.

Taking the Ad. Literally.
"We want high-grade articles," advertised the magazine. And in the next day's mail 20 motor enthusiasts submitted stories relating to the steep hills they had climbed.

Verily.
Tyro—"Isn't billiards rather an expensive game?" Oldsport—"Yes; it's costing us all the elephants there are in the world."

Almost.
It is almost a shame for a man to live to be 96 years old, without making it worth while to write his memoirs.

Chance for Capitalists.
No one is at present engaged in exporting hard woods from Ecuador, which is rich in them.

New Madras Industry.
Tanning snake skins for the manufacture of women's belts has become a lucrative industry of Madras.

Crops Worth Immense Sum.
The 12 principal crops of this country show a valuation of \$5,000,000,000.

Must Wait for Remarriage.
In Louisiana the law permits a widow to marry again only provided she has waited until ten months after the death of her husband.

Materials for Gas Making.
In the United Kingdom 17,000,000 tons of coal and 50,000,000 gallons of oil are used annually in gas making.

Locomotive Blasts.

E. B. Packard, of Nashville, Tenn., has accepted a position as dispatcher on this division of the L. & N.

S. W. Mothershead, chief clerk of Assistant Superintendent Devey, of Evansville, spent Sunday in the city.

An inspection train will go over the division tomorrow. All the local officers as well as a number from Louisville will be on board.

C. D. Darrah, the new assistant trainmaster is now learning the road and will formally take charge of that office Monday. We wish Mr. Darrah all the good luck and success possible.

The Louisville & Nashville railroad intends to build, with other work, some additional freight yards at Paris, Ky., probably by the company's own forces. W. H. Courtney is chief engineer at Louisville, Ky.

The Lexington & Eastern Railway, it is reported, will build an extension from Jackson along the north fork of the Kentucky River to the mouth of Quicksand Creek east of Jackson. John Marston, Jr., is chief engineer at Lexington, Ky.

The Wasatch & Black Mountain Railroad Co., it is reported, has let another contract to the Callahan Construction Co. of Knoxville, Tenn., this being for 27 miles of line from the mouth of Poor Fork to Luna Creek, and including about 500,000 cubic yards of excavation, a tunnel 700 feet long, besides masonry and concrete work; the same contractor is already working on a 24 mile contract from Toms Creek to Harlan, Ky.

Ruskin's Protest.

Utopianism: that is another of the devil's pet words. I believe the quiet admission, which we are all of us ready to make, that because things have long been wrong it is impossible that they should ever be right, is one of the most fatal sources of misery and crime.—Ruskin, "Architecture and Painting."

Doll Ceremoniously Named.
Invitations were sent to hundreds of well-known Parisians by Mlle. Solange Ricard, the little daughter of the famous doctor, who desired her friends to attend the ceremony of "naming" her new doll. The party was a great success, where the big children had quite as merry a time as the little ones. The doll was "named" Heloise Berthe with due ceremony.

Test Easily Made.

Radio activity of minerals may be tested by their effect upon a photographic plate, which will show shadows of metallic objects placed beneath it and a specimen of uranium mineral.

New Luxury in Barber Shop.
A Cincinnati man has patented an electric air heater for barbers' use, connected at; raising through a cylinder containing a resistance coil.

ORDINANCE.

Whereas, Wm. Bradley, city marshal, has appointed Jas. Kilroy, W. A. Rudolph, D. B. Griffin, T. C. Todd, R. N. Clark, P. E. Hawkins, Jao. Morgan, Geo. W. Wilson, Henry W. Rogers, Chess Bradley, Wm. Barnes, Jao. T. Barnett, J. H. Corbitt as deputy marshals, now the City Council of the city of Earlington, Ky., do ordain as follows: That the said appointments and each of them be and they are hereby approved.

Attest: Jas. R. Rash, Mayor.

Attest: Paul P. Price, City Clerk.

Earlington, Ky., April 4, 1910.

When Candy is Good for a Child.

The average healthy child of ten or 12 should be able to eat of pure candy the equivalent in weight of two or three lumps of sugar after his midday meal. This, however, should not be given him unless other proper foods, in sufficient quantity, are eaten, and should never be allowed between meals. Butter-tasty and molasses candy, made at home of pure materials, are especially to be recommended, and may be considered valuable articles of food.—Joan Williams, M. D., in Woman's Home Companion.

As It Looked to Her.

To my little daughter of three the dawning of each new day was a constant marvel and surprise. Going to an east window, she would look out quickly and exclaim: "Mamma, the sky's open again!" One morning there was a heavy fog, and when Beatrice went to the window she cried in great alarm: "Come, quick! Come, quick!" The sky's coming down the road.—Woman's Home Companion.

Voting Under Difficulties.

Before the advent of the railroad the polling in some English constituencies occupied as much as 14 days. In the Buckinghamshire election of 1784, for instance, there was only one place for voting (Aylesbury), and electors had to be brought in from places as much as 35 miles distant.

Norway's Sardine Industry.

Norway has 40 sardine factories. During a good season 50,000,000 tins of 20 to 24 fish each are packed.

Trick of Fur Dealers.

One of the tricks in the fur trade is to insert white hairs in foxes and blues to make "silver foxes."

Exonerating the Hockworm.

"My suspicion is," said Uncle Eben, "dat some hock worms ketch deir lastness 'um de folks dey been travellin' with."

Time Well Expended.

Life is not so short but that there is always time for courtesy.—Emerson.

YOU DON'T BUY ENGRAVING PRIMARILY TO ECONOMIZE ANY MORE THAN A MAN SMOKE A TEN CENT CIGAR TO ECONOMIZE. PRICES ON FINE WORK THAT PROPERLY REPRESENTS YOUR PERSONALITY ARE TWO REASONABLE FOR YOU TO USE PUNCHED LETTERING AND SHODDY WORK.

SEE WHY YOU WANT TO BE CORRECT.

Hold your calendar order for the Bee, and get the best goods for the least money.

THE EARLINGTON BEE

Earlington, Kentucky

BEE ADS BRING RESULTS

A Storekeeper Says:

"A lady came into my store lately and said: 'I have been using a New Perfection Oil Cook-Stove all winter in my apartment. I want one now for my summer home. I think these oil stoves are wonderful. If only women knew what a comfort they are, they would all have one. I spoke about my stove to a lot of my friends, and they were astonished. They thought that there was something wrong with it, and that it heated around just like any other stove. I told them of my experience, and one after another they got one, and now, not one of them would give hers up for five times its cost.'"

The lady who said this had thought an oil stove was all right for quickly heating milk for a baby, or boiling a kettle of water, or to make coffee quickly in the morning, but she never dreamed of using it for difficult or heavy cooking. Now she knows.

Cautionary Note: Be sure you get this stove—see that the nameplate reads "New Perfection."

New Perfection WICK BLUE FLAME Oil Cook-stove

It has a Cabinet Top with a shelf for keeping plates and food hot. The nickel finish, with the bright blue of the chimneys, makes the stove ornamental and attractive. Made with 1 and 3 burners; the 2 and 3-burner stoves can be had with or without Cabinet.

Every dealer everywhere; if not at yours, write for Descriptive Circular to the nearest agency of the

Standard Oil Company

(Incorporated)

I am glad to think I am not bound to make the world go right. But only to discover and to do. With cheerful heart, the work that God appoints.
—Jean Inglew.

MINING NOTES.

Thos. N. Black, of Shamrock, spent Monday in the city on business.

Thos. O. Long left Monday for Webster county to inspect the mines in that county.

Jno. Carroll, mine superintendant of the mines at Circle City, was in the city with friends Sunday.

M. B. Ray is weighing coal at No. 9 mine during the absence of Jno. M. Hogan, who is in New Orleans this week.

A good many miners from the Indiana and Illinois coal fields are visiting friends and relatives in the city during the shut down in those mines.

Thos. O. Long has a new gas miner's lamp which throws a light of great distance and is worn on the head as the oil lamp. The cost of these lamps is cheap and enough carbide can be carried to last for some time. It has a storage capacity for eight hours and is the first ever seen in Earlington.

True Courage.
The bravery founded on hope of recompense, fear of punishment, experience of success, on rage, or on ignorance of danger, is but common bravery, and does not deserve the name. True bravery proposes a just end; measures the dangers, and meets the result with calmness and unyielding decision.

Good Reason.
"I suppose you all drank a toast to your host?" "No, we out that out." "Why, I am sure it was on the program, the last toast." "That was the mistake. It was the last toast, and we out it out." "But why?" "Well, you see, it was to have been drunk during the toast."
—Houston Post.

Extract a Cork.
Take a piece of string that will stand some strain, fold it to form a loop, insert it into the bottle, shake the cork into the loop and pull. Out pops the cork! Should the bottle contain anything, empty it, remove the cork and refill.

Sense of Honor.
The sense of honor is so fine and delicate a nature that it is only to be found in minds which are naturally noble, or in such as have been cultivated by great examples or a refined education.—Addison.

Dated Sandwiches.
The dated sandwich is an innovation in the railroad station restaurant service.

Wage Warfare on Sparrows.
An English agricultural society has a sparrow extermination fund.

COMPARES KENTUCKY WITH PROHIBITION MAIN

Gov. Wilson Tells New Yorkers of Our 107 Dry Counties.

New York, April 12.—Kentucky's fame as the land of the mint julep will soon be a thing of the past, according to Governor A. E. Wilson, who is in New York to attend the annual banquet tonight of the Kentucky Society of New York. The prohibition wave has struck the Commonwealth long noted for its good whisky, he says, and well nigh the entire State is now dry.

"There is really no State in the Union," said Governor Wilson, "where more good whisky is made and less drunk. There are 107 dry counties in the State and on the whole the laws are rigidly enforced. I will wager that there is less drinking in Kentucky than in the prohibition State of Maine."

Singer and Orator.
"I had my way," Dr. Macnamara once confessed to an interviewer, "I should be singing in 'Carmin' instead of making speeches from the treasury bench. But, unfortunately, the British public thinks a great deal more of a man who can make a bad speech than a man who can sing a good song."—Westminster Gazette.

Curiosity on the Farm.
A little girl of the electric lighted places went to her grandfather's farm to spend the summer. She saw an unfamiliar animal on one of her strolls and ran to the house very much frightened. "I don't know if it was a snake or an owl," she said, "but it ran crooked and spit fire, and I guess it was a griffin."

Good Will.
Good will is at work, and it is making things better. In spite of the prevailing social philosophy, it is gaining ground. Even now, with such partial, half-hearted recognition as we give it, good will is making things better.—Dr. Washington Gladden.

Honor Belongs to Liverpool.
The first school for the blind in the world was established at Liverpool in 1791.

Measurements made in London schools prove that the children of the well-to-do are better grown for their age than the children of the poor.

Men.
Men of loftier mind manifest themselves in their equitable dealings, mail mislaid men in their going after gain.—Confucius.

Tribute to Patience.
Patience is the strongest of strong drinks, for it kills the giant Despair.—Douglas Jerrold.

High speed telegraphy.
In a recent test of a new German high speed telegraph apparatus 2,900 distinctly recorded words were transmitted 450 miles in five minutes.

In French and German.
The French call our country Etats-Unis, but Vereinigete Staaten is the German rendering of the same name.

Unconventional.
Gwendolen (greatly shocked): "Oh, mother! Baby's speaking to all sorts of people he doesn't know!"—Punch.

Make the Best of It.
Let's pretend that all's well with the world, though it is hard to accept some things we cannot account for.

Build Mammoth Nests.
The jungle fowls of Australia construct their nests in great mounds 15 feet high and 150 feet in diameter, composed of leaves and twigs.

Clothes and Manners.
You may need two sets of clothes, but one set of manners is better than two, if it is a good one.—Atchison Globe.

Unreasonable.
The woman who wants to wear the trousers is unreasonable. She expects, after gaining her point, to keep right on using stockings.

The Ways of Men.
Many a man who would be unable to find the family Bible if he hunted all day would have no difficulty in putting his hand on the corkerew, even in the dark.

Fatal Lack of Sense.
Few greater misfortunes could befall a man than to be dead to the beauty of his surroundings.—Thomas Davidson.

A Missouri Parrot.
An Atchison woman says she heard a Missouri school-teacher say to a pupil: "Don't say 'taint.' There ain't no such word."—Kansas City Star.

The Test of Sober Thought.
If an idea that seemed so brilliant as you smoked your good night cigar still looks good when you crawl out in the cold the next morning, there's usually something in it.—Kansas City Times.

CITY DIRECTORY.

CITY OFFICERS

Mayor—James R. Rash.
Police Judge—A. J. Bennett.

C. B. CRONSHAW, Clerk.

The E. A. C. is open every night over the Victory building. Business meeting first Monday night in each month.
W. R. COVLE, Pres.

Invention of the Lifeboat.
The most effective means of life saving in the event of a storm is the lifeboat, the first one of which was invented on the Thames on January 4, 1785, by Lionel Lukin, a coachmaker of an inland town near London. The first lifeboat was a Norway ark, which he had fitted with watertight compartments, a heavy iron keel and other essentials in buoyancy and stability, which are the cardinal and requisite features of lifeboats now.

History of New York Street.
The maiden name of Nassau street, New York, was the Van Wagon's lane. It was opened in 1666 by a man named Kay, who obtained the right to make it a cartway to what is now City Hall park.

COLORED COLUMN

S. H. DRIVER, EDITOR

Goodrich for photographs.

Mrs. Boney Radford is quite sick at this writing.

There were fine services at the Baptist church Sunday.

Don't forget the rally on the fourth Sunday at Hecla.

Rev. P. H. Kennedy passed through last Wednesday, en route Henderson.

Wash Hines was suddenly called to Olmstead to attend the funeral of his daughter.

The Knights of Friendship will again begin their weekly drill, much to the delight of all.

J. E. Killbrow has been elected a delegate the Odd Fellows District Grand Lodge, which convenes at Frankfort in July.

The Zion church has not appointed their correspondent yet, hence we have trouble in writing the news for that church.

George Amos had the misfortune to sprain his foot very badly last Sunday, on account of which he is confined to the house.

Joseph Williamson had the misfortune to hurt himself very badly, while running his machine, during the early part of the week.

Mr. and Mrs. Whitney Eaves wish to extend their heartfelt thanks to everyone who so patiently stood by them in the hour of their affliction.

The Church Aid Society will give an Entertainment Friday night at

the old Baptist church, at which all the delicacies of the season will be served.

Rev. H. Amos has accepted a call to one the Baptist churches in Paducah. The church has made a great gain as the Rev. is a noble preacher.

Our sick this week are: John Feely, Mrs. Mary Dunlap, Mrs. Williamson and grand child, Allen, and the infant of Mrs. William McGary, is very sick.

The C. M. E. Church had very good exercises last Sunday. Rev. G. W. Gladish was elected delegate to the Episcopal League Convention, which will convene at Madisonville in May.

If you want to own a home why not begin to save even a few dollars now? Get the little folder at The Peoples Bank and see how one colored man has saved over \$250.00 and did not go hungry either.

Remember the rally at Baptist church next Sunday, April 17. We will have Rev. Whitsoide and his congregation from Madisonville, Hecla Baptist church, Rev. Fortna and his congregation, Rev. Garretts and the C. M. E. congregation. All money raised will be placed on the building fund. Each and all are cordially invited to be with us. There will be some services. We ask that each member do his whole duty.

Love Versus Passion.
Love and passion are too often mistaken, for they are really distinct. Love elevates, passion degrades; love enlarges the heart, passion narrows it. Pure love is entirely free from the taint of passion and is as rare as pure charity.—Home Notes.
